

**EXHIBIT C
TENTATIVE TRACT MAP 3091
FINDINGS
SUB2015-00026**

Environmental Determination

- A. The Environmental Coordinator, after completion of the initial study, found, and the Planning Commission agrees, that there is no substantial evidence that the project may have a significant effect on the environment, and the preparation of an Environmental Impact Report is not necessary. Therefore, a Mitigated Negative Declaration (pursuant to Public Resources Code Section 21000 et seq., and CA Code of Regulations Section 15000 et seq.) was issued on May 19, 2016, and is hereby adopted for this project. Mitigation measures are proposed to address Air Quality, Cultural Resources and are included as conditions of approval.

Tentative Map

- B. The proposed map is consistent with applicable county general and specific plans because it complies with applicable area plan standards and is being subdivided in a consistent manner with the Residential Multifamily land use category.
- C. The proposed map is consistent with the county zoning and subdivision ordinances because the parcels meet the minimum parcel size set by the Land Use Ordinance and the design standards of the Real Property Division Ordinance.
- D. The design and improvement of the proposed subdivision are consistent with the applicable county general and specific plans because the required improvements will be completed consistent with county ordinance and conditions of approval and the design of the parcels meets applicable policies of the general plan and ordinances
- E. The site is physically suitable for the type of development proposed because the proposed parcels contain adequate area for development of residential units.
- F. The site is physically suitable for the proposed density of the development proposed because the site can adequately support eight residential units.
- G. The design of the subdivision or the proposed improvements will not cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat because no rare, endangered or sensitive species are present; and mitigation measures for air quality and cultural resources are required.
- H. The design of the subdivision or the type of improvement will not conflict with easements acquired by the public at large for access through or use of property within the proposed subdivision.
- I. The proposed map complies with Section 66474.6 of the State Subdivision Map Act, as to methods of handling and discharge of waste.
